

## Over 110 Years of Manufacturing Excellence, Exceptional Service and Supply Solutions

For more than 110 years, KASCO SharpTech has been the industry leader in manufacturing quality metallic blade products for the meat, food and wood cutting industries throughout the world.

KASCO's nationwide network of factory trained professional technicians provides a vast range of parts, supplies, seasonings, and equipment maintenance & repair services to retailers, grocers, restaurants, and food service organizations throughout North American.

### Manufacturing & Distribution

KASCO SharpTech has global manufacturing and warehouse operations in St. Louis, Missouri USA; Matamoros, Mexico; Wales, United Kingdom; and Pansdorf, Germany. KASCO has sales offices, warehouse locations, and employees in the USA, Canada, Mexico, UK, Germany, and China. Sophisticated global purchasing, distribution, and logistics are utilized to manufacture, source, and deliver top quality products and services to customers locally.

The KASCO SharpTech knowledgeable sales force and friendly customer service staff also serve and support global parts and supplies distribution markets.

Global distributor channels include North America, South America, Central America, Asia, the Caribbean, and Europe. KASCO SharpTech sister companies include Atlantic Service Company LTD (UK) and Bertram & Graf GmbH (Germany) and they offer extensive coverage of the European and African markets.

### Equipment Maintenance & Repair

An expansive field of technicians, route sales personnel, and service personnel across the United States and Canada provide prompt professional service, preventive maintenance, repairs, and the delivery of quality products. KASCO SharpTech's network of technicians provides commercial food equipment service and repairs to retail grocery stores, butcher shops, packing houses, and restaurants across the US and Canada. Every factory trained technician carries a large inventory of repair parts for on-the-spot repairs, and we can provide same day and next day emergency repair service in most areas of the country.
