

Keeps Machines Running Smoothly and Extends Equipment Life

The difficult process of cleaning your meat and deli department is made simple when you use Lubricoat Food Equipment Oil. Spray this food grade lubricant on your machines and the coating action will prevent food by-product from sticking to machine parts, making cleaning quick and simple. Lubricoat also lowers repair costs and extends equipment life by creating a barrier that reduces equipment destroying heat and friction.

- Colorless, odorless, tasteless and non-toxic
- Can be sprayed directly on food equipment without worrying about contamination
- Designed to reach small food contacting surfaces
- Available in quart, gallon and spray bottles

Lubricoat is available in gallon bottles, quart bottles, and spray bottles. The food grade lubricant spray is designed to reach the smaller food contacting surfaces found in found in butcher, deli, produce and food service departments. Lubricoat is the perfect solution for keeping your machines running smoothly and extending equipment life.

Lubricoat® Benefits:

- Makes cleaning and lubricating quick and simple
- Lowers repair costs and extends equipment life
- Government approved for direct and indirect contact with food
- Every batch is tested by independent laboratory for impurities and contaminants
