

# CARCASS SPLITTING SAW BLADES

## Exceeding Industry Standards for Sharpness, Durability and Reliability

KASCO carcass splitting saw blades are engineered to slice through even the toughest of meats. Made from quality materials to ensure usability and reliability, these blades are durable and long-lasting while providing a precise cut time after time.

The wider band saw blade adds strength and stability for accurate and straight splits. These blades are engineered to handle large volume jobs and deliver a punishing breaking operation. They also reduce downtime while breaking and quartering. KASCO carcass splitting saw blades come in a variety of sizes for specific uses.

| Width       | Thickness       | Teeth per Inch | Edge Type |
|-------------|-----------------|----------------|-----------|
| 3/4" (19mm) | 0.022" (0.55mm) | 3T             | HP        |
| 3/4" (19mm) | 0.025" (0.63mm) | 3T             | HP        |
| 3/4" (19mm) | 0.022" (0.55mm) | 3T             | CSHP      |
| 3/4" (19mm) | 0.022" (0.55mm) | 4T             | CSHP      |
| 1" (25mm)   | 0.032" (0.81mm) | 3T             | HP        |
| 1" (25mm)   | 0.035" (0.89mm) | 3T             | HP        |

*CSHP - Carcass splitter, hard tipped, precision ground.  
HP - Hard tipped, precision ground.*
